

1988-1998 GM C/K1500 Exhaust System Tips BH14352 & BH14354 Installation Instructions

Thank you for choosing to install Hooker Blackheart products on your 1988-1998 GM C/K1500 truck. These tips are intended to be used to finish out the installation of the Hooker Blackheart dual-exit exhaust systems developed for this vehicle application.

PRE-INSTALLATION CHECK:

Check that the hardware package includes the following:

BH14352 and BH14354	
Qty.	Description
2	2.5" Band Clamps

If any listed hardware is missing, please contact Technical Service at: 1-866-464-6553 or 270-781-9741.

IMPORTANT! Position and support your vehicle on a suitable surface. **USE CAUTION AND WORK ONLY ON A LEVEL SURFACE USING JACKS AND JACK STANDS OF SUFFICIENT CAPACITY TO LIFT AND SUPPORT YOUR VEHICLE. NEVER WORK UNDER A VEHICLE SUPPORTED BY A FLOOR OR BUMPER JACK.** Use of a two-post under arm lift or four-post drive-on lift will considerably reduce the time and effort required to complete the installation. **MAKE SURE LIFT LOCKS ARE ENGAGED BEFORE WORKING UNDER THE VEHICLE.**

INSTALLATION:

1. Place the supplied band clamps over the expanded inlet ends of each tip and install them onto the outlets of the Hooker Blackheart dual-exit exhaust system already installed on the vehicle.
2. Adjust the tips and/or exhaust system components to achieve best fitment and then tighten all the clamps.

Any questions? Please contact Technical Service: 1-866-464-6553 or 270-781-9741. For online help, please refer to: www.holley.com

COMPATIBILITY INFORMATION:

These exhaust system tips are intended to be compatible with Hooker Blackheart exhaust systems only. They are designed to be compatible with a stock size spare tire mounted in its original location and with most aftermarket trailer hitches.

If needed, additional compatible LS engine swap components, such as EFI fuel control systems, fuel filters, fuel pumps, plumbing hose/fittings, valve covers, and accessory drive brackets can be found at www.holley.com.
