

NEW Quick Connect Adapter Fitting (OE Fuel Connections To -6 & -8 AN)

Quick Connect utilizing dual O-ring seals, OE style stainless steel internal snap retainer, and an external redundant clip combined to deliver the ultimate in safety.

- Utilizes reliable OE style metal internal and external redundant retainers assures connection will not snap loose as seen with plastic versions
- One hand “click” connection to OE lines
- Adapts popular GM, Ford and Chrysler fuel connections to -6 & -8 AN
- Tether keeps external clip close when disconnected or can be replaced with safety wire for another layer of security
