

PRO BIG SHOT™ NITROUS SOLENOID & NITROUS BOTTLE WRENCH

PRO BIG-SHOT NITROUS SOLENOID

Nitrous oxide is the easiest way to add big power to any engine and NOS is the #1 name in nitrous! NOS is proud to introduce a new nitrous solenoid to the lineup. The NOS Pro-Bigshot™ nitrous solenoid features a huge .250" orifice encased in a lightweight, clear anodized billet aluminum base that provides maximum flow for extreme applications. The Pro-Bigshot™ is a pressure balanced design that greatly reduces power draw, requiring only 4-6 amps during operation. Coming in at only 3.5" tall and 1.63" in diameter, the Pro-Bigshot™ nitrous solenoid makes installation easier on multiple stage systems compared to the trash can style solenoids.

Part Number: 18070NOS

Specifications: 3.5" tall / 1.63" diameter

Maximum Pressure: 1200 PSI

Orifice Diameter: .250"

Current Draw: 4-6 Amps

Inlet (side)/Outlet (bottom) Size: 1/4" NPT

Weight: .85 lbs

Finish: Blue powder coated housing with a clear anodized aluminum base

Part #	Description
18070NOS	Pro Big-Shot Nitrous Solenoid

NOTE: This solenoid is recommended for non-progressive nitrous applications that require absolute maximum solenoid flow, as well as installations that are trying to reduce overall electrical current.

NITROUS BOTTLE WRENCH

The folks at NOS have designed a custom wrench that is a must have tool for any nitrous racer. No need to pack multiple AN wrenches along with a bottle nut wrench. The NOS Bottle Nut/AN Combo Wrench is all you need. The NOS wrench combines the ability to service 3AN, 4AN, 6AN, 8AN lines and 1-1/4" bottle nuts in one handy tool. Precision machined from 6061-T6 aluminum with a black anodize and laser etched for great looks and easy size identification.

INTRODUCING SNIPER PLUMBING & FUEL SYSTEMS!

NOS started its Sniper line of products with budget minded nitrous kits and now NOS is proud to offer Sniper plumbing and fuel systems! Built to take your project to a new level of performance at a great price, Sniper plumbing offers hand polished aluminum fittings and high-strength hoses. Add to that, Sniper fuel pumps, regulators, and filters and now Sniper is a one-stop-shop for a complete fuel system overhaul. Stay tuned for more Sniper branded products from NOS!

NOTE: Sniper fittings such as AN hose ends and AN adapters are for fuel systems, water and oil only. They are NOT for building high pressure nitrous lines.
