

# NOSTALGIC BLOWER CASES

A true blast from the past. These highly sought after superchargers have been unavailable for years. Weiland is proud to reintroduce them. The case of the 6-71 and 8-71 superchargers have been redesigned for a nostalgic look that will look at home on a cacklefest dragster as well as a new high end build.

**HORSEPOWER!** - Weiland's 6-71 and 8-71 kits are the ultimate statement of power and looks. Pull into the local cruise-in or dragstrip with one of these sticking through the hood and you will get noticed. They're not for the meek however - these supercharger kits are designed to generate 50%+ more horsepower and torque across the rpm range!

- 175-275+ Horsepower increases [6-71]
- 200-300+ Horsepower increases [8-71]
- Provides maximum visual appeal
- Kits for Small and Big Block Chevrolet and 392 Hemi [6-71 only]
- Option of traditional 1/2" pitch [6-71 only] or 8mm belt drive
- Available polished or unpolished
- Full-time power every time you hit the gas with no lag

Weiland's 6-71 blower kits are equipped with exclusive two lobe rotors for maximum boost at lower RPMs and Weiland's 8-71 blower kits are equipped with reconditioned GM three lobe rotors for peak performance under demanding high RPM conditions. All feature a new case, end-plates, manifold and snout. Billet belt tensioner components and V-belt pulleys round out the package to give you everything necessary for installation. Kits are engineered to produce 10-12 lbs of boost on small blocks and 5-7 lbs of boost on big blocks but are a simple pulley change away from pump gas or hard core racing.

6-71 kits are available with either the traditional 1/2" pitch or the extra tough 8mm belt configuration while all 8-71 kits come with the extra tough 8mm belt configuration. Satin or polished finishes are available to match the "hard-core" or "show and go" look you're after.

All superchargers are built in Weiland's state-of-the-art manufacturing cell and each supercharger is 100% boost tested to help you squeeze out maximum power and efficiency.

Part #	Description
<b>SMALL BLOCK</b>	
7582	6-71 1/2" Pitch Drive - Satin
7582P	6-71 1/2" Pitch Drive - Polished
7587	6-71 3" Gilmore Drive, Long Nose - Satin
7587P	6-71 3" Gilmore Drive, Long Nose - Polished
7385	8-71 3" Gilmore Drive, Long Nose - Satin
7385P	8-71 3" Gilmore Drive, Long Nose - Polished

Part #	Description
<b>BIG BLOCK</b>	
7583	6-71 1/2" Pitch Drive - Satin
7583P	6-71 1/2" Pitch Drive - Polished
7588	6-71 3" Gilmore Drive, Long Nose - Satin
7588P	6-71 3" Gilmore Drive, Long Nose - Polished
7386	8-71 3" Gilmore Drive, Long Nose - Satin
7386P	8-71 3" Gilmore Drive, Long Nose - Polished

Part #	Description
<b>HEMI</b>	
7581	6-71 1/2" Pitch Drive, 392 HEMI - Satin
7581P	6-71 1/2" Pitch Drive, 392 HEMI - Polished
