Installation Instructions**

Thank you for choosing to use this Hooker Blackheart product as part of your engine swap project. This component has been designed specifically for use with multiple Hooker Blackheart engine swap transmission crossmembers, as referenced on Holley’s website, and within various Hooker Blackheart transmission crossmember instruction sheets.

Installation of this component requires the use of an **Energy Suspension™ 3-1158** (polyurethane), **Prothane™ 7-1604** (polyurethane), or **Anchor Industries™ 2268** (rubber) transmission mount for as-designed installation geometry to be achieved.

INSTALLATION:

NOTE: These instructions have been written with the assumption that your transmission and Hooker transmission crossmember has been installed into the vehicle.

- 1. Check that the hardware package includes the following:

Qty.	Description
1	Machined Aluminum Spacer
2	7/16" Flange Bolts (Grade 8)
2	7/16" Flat Washers (Grade 8)

If any are missing, please contact Technical Service at 1-866-464-6553 or 270-781-9741.

- 2. Raise the rear of your transmission and install this spacer block, and any other supplemental spacer(s) called out for in specific Hooker Blackheart transmission crossmember instruction sheets, between the transmission crossmember and the transmission isolator mount.
- 3. Attach the transmission mount, spacer, and crossmember together with the supplied hardware.
