

Vantage CL2 Quick Start

Step 1

Locate the CL2 serial number, found on the bottom of the CL2.

Step 2

Go to portal.racepak.com to create your user account and register the CL2 for use.

Step 3

Learn more at portal.racepak.com for CL2 installation instructions.

Step 4

Using the mobile device to be utilized with the CL2, search Racepak D3 app on Google Play or Apple app store.

Step 5

Install the Racepak D3 app on the mobile device.

Step 6

Pair the mobile device with your CL2 data box per the CL2 installation instructions.

CL2 Track Checklist

Step 1: Ensure vehicle is outdoors, to acquire GPS satellites.

Step 2: Ensure the CL2 is powered up.

Step 3: Open D3 app on vehicle mounted mobile device.

Step 4: Log In – Enter account email and password.

Step 5: Settings – Select Motorsports Type.

Step 6: Driver & Team – Enter Driver name and Team Receiving Data.

Step 7: Sensors – Program up to 10 OBDII or EFI inputs.

Step 8: Observe CL2 LED on end of housing-Green blink indicates paired with onboard mobile device.

Step 9: Start Engine – Pit Dash will appear if engine RPM is received from the OBDII.

Step 10: Box/GPS/CLOUD indicators on Pit Dash should appear Green.

Step 11: CL2 is ready for track activities.
