At the heart of any performance vehicle is the exhaust system. Hooker with its classic heart logo has been at the core of the exhaust industry for decades. Many of the most powerful vehicles on the planet have used Hooker Headers. Hooker continues to push the boundaries of performance with the new Blackheart line of performance exhaust systems for popular late model vehicles. The Blackheart line is truly a platform designed full exhaust program. From the cylinder head flange to the tailpipe, the Blackheart line is engineered to provide maximum exhaust velocity, ground clearance, style, performance and quality!
All Blackheart headers are constructed of lightweight 18-gauge, 304 stainless steel with high-flow, long transition collectors featuring merge spears for maximum flow and increased exhaust velocity. 3/8” thick water-jet cut flanges provide maximum sealing surface for a leak-free seal and ultimate strength. The primary tubes are designed for optimum flow and maximum ground and engine component clearance providing the perfect combination of performance and fit. The Blackheart Axle-Back and Cat-Back exhaust systems are also constructed of lightweight 18-gauge 304 stainless steel and accommodate all factory hanger points for an easy installation. The polished 304 stainless steel, straight through designed mufflers provide maximum flow and an aggressive, powerful exhaust note. When it’s time to tear the heart out of the competition - choose Blackheart!

www.hookerheaders.com | 270-781-9741
2012-15 CHEVY CAMARO ZL1, 1LE, SS V8 - 6.2L - EQUIPPED WITH NPP EXHAUST

Have a ZL1, 1LE or SS Camaro with the optional “NPP” dual mode exhaust? Want something louder and more aggressive? Or do you have a standard SS and want to upgrade to the quad tip exhaust system when you change your rear valence? Hooker Blackheart has you covered. The OEM system is heavy and unattractive. With Blackheart you get styling, weight reduction, hard core sound and performance.

Axle backs fit 2012-2015 NPP equipped vehicles only.
Will not fit 2010 to 2015 dual tip (one tip per side) exhaust systems.

Cat-back system is required to convert a standard dual tip 2010-2015 Camaro to the Blackheart quad tip system (along with matching valance).

NOTE: Hooker systems eliminate the “NPP” dual mode valve.
2010-15 CHEVY CAMARO V6 - 3.6L (5TH GEN)

FULL LENGTH HEADERS
