Flowmaster muffler part numbers use a system that is far more important than just a series of consecutive numbers. From a Flowmaster muffler part number, you can determine the product series, case thickness, inlet/outlet diameters and placement, as well as any special applications. Information regarding collectors is also available through the part number.

Prefix 7 = FlowFX
Prefix 80 = Stainless Steel Original D0
Prefix 81 = Stainless Steel Delta Flow
Prefix 9 = Aluminum Delta Flow

**PART NUMBERING SYSTEM**

- **Inlet / Outlet Diameter**
  - 20 = 2.00"
  - 25 = 2.50"
  - 27 = 2.75"
  - 30 = 3.00"
  - 35 = 3.50"
  - 40 = 4.00"
  - 45 = 4.50"
  - 50 = 5.00"

- **Series Designation**
  - 40 Series: (1 Chamber)
  - 41 Series: (2 Chamber)
  - 42 Series: (3 Chamber)
  - 46 Series: (Race)
  - 50 Series: (1 Series)
  - 52 Series: (2 Series)
  - 58 Series: (4 Series)

- **Case Thickness**
  - 3 = 3.00"
  - 4 = 4.00"
  - 5 = 5.00"
  - 6 = 6.00"

- **Inlet / Outlet Placement**
  - L = Left Side
  - R = Right Side
  - 10 = 10.00" Wide
  - 12 = 12.00" Wide
  - 14 = 14.00" Wide

- **Special Designation**
  - 1 = Center Inlet - Center Outlet
  - 2 = Center Inlet - Center Outlet
  - 3 = Offset Inlet - Opposite Outlet
  - 4 = Offset Inlet - Same Offset Outlet

- **Collector**
  - Collector Inlet Diameter = 1.75" I.D., Intermediate = 2.375"
  - Collector Outlet Diameter = 3.00" O.D.

- **Y Pipe**
  - Y Pipe Inlet Diameter = 2.50" I.D., Y Pipe Outlet Diameter = 3.00" O.D.

**FLOWMASTER®**
